EDUCATION

Thapar Institute of Engineering and Technology 2025 – 2029
B.Tech, Computer Science and Engineering (CSE) — CGPA: 9.94 *Patiala, Punjab*
Semester I SGPA: 9.89 | Semester II SGPA: 10.00 (Perfect Score)
Narayana e-Techno School
Class X – 94.8% | Class XII – 93.6%, Science Stream
Qualified JEE Main

SKILLS

Programming Languages: C, C++
Technical Skills: Problem Solving, Data Structures & Programming Fundamentals, Technical Research, Documentation, Technical Presentation, Report Writing
Professional Skills: Leadership, Communication, Team Collaboration, Event Management, Marketing & Outreach, Networking, Public Speaking, Time Management, Analytical Thinking

HACKATHONS & RESEARCH

Smart India Hackathon (SIH) — Research Contributor
IoT-based Renewable Energy Microgrid Solution
- Conducted feasibility and viability analysis; evaluated technical, operational, legal, and market feasibility.
- Identified implementation challenges and risks; prepared research-backed documentation for the project presentation.
- Collaborated closely with senior mentors throughout the project lifecycle.

Hack2U
- Participated in the development of a healthcare-focused solution, gaining experience in collaborative innovation, rapid problem-solving, and product ideation under hackathon timelines.

PROJECTS

Ultrasonic Levitator using Arduino and Ultrasonic Transducers Arduino, Embedded Systems
Applied Physics coursework project — suspended lightweight objects in mid-air using 40 kHz ultrasonic transducers
- Conducted technical research and coordinated project documentation.
- Assisted in circuit design, breadboard assembly, and hardware integration.
- Identified, researched, and procured the required electronic components.
- Contributed to technical report writing, editing, and final documentation.
- Demonstrated the complete working prototype to the evaluator, explaining the underlying scientific principles and engineering implementation.
- Gained practical exposure to standing waves, acoustic radiation pressure, resonance, contactless object levitation, and embedded electronics.

LEADERSHIP & STUDENT ACTIVITIES

OWASP Student Chapter — Executive Member, Marketing & Outreach
- Contributed to marketing and outreach initiatives as part of the chapter's executive team.

OWASP × Google Prompt Wars Hackathon
- Conducted the complete participant briefings for the hackathon.
- Mentored students on GitHub, guiding them through uploading and managing their projects on repositories.
- Assisted teams with deploying their projects on Vercel and Render.
- In the afternoon session, represented the Outreach & PR department and presented its role and key responsibilities within the society.
- Highlighted the department's achievements, including driving participant turnout beyond expectations and exceeding the venue capacity originally booked for the hackathon.

HackOWASP 8.0 — TIET's flagship 36-hour hackathon
- Supported event planning and execution; led outreach initiatives by connecting with student organizations across India.
- Coordinated institutional communications and email campaigns.
- Assisted in participant engagement and on-ground event management.

BUSINESS & ENTREPRENEURSHIP

Orphicy Learning Mini MBA in Business Administration and Management First Position, Pan-India
- Developed “BotSpot,” an online education brand, and presented it before an investor panel in a Shark Tank-style business simulation.
- Strengthened understanding of entrepreneurship, business strategy, financial analysis, branding, market research, and team leadership.

ACHIEVEMENTS & CERTIFICATIONS

- Gold Medalist, Intra-School Basketball Championship — Team Captain.
- Former School Club Leader — coordinated student activities and represented the student body.
